Your Exclusive Mendota Dealer:

DXV GAS FIREPLACES

Luxury that lasts

Trends may come and go, but the classic design of the ever-popular Mendota DXV Series fireplace is a timeless addition to any home. While many gas fireplaces are stamped out in a cookie cutter approach, each Mendota DXV fireplace is handcrafted to give you a lifetime of comfort and durability.

This is the fireplace that permanently established Mendota as the leader in uncompromising quality, craftsmanship and performance. Our DXV fireplaces have won Best of Show honors at the National Hearth Products Association Expo and have been listed as a Best Buy value by Consumers Digest.

And now, the classic DXV fireplace combines with Mendota's BurnGreen™ technology to provide the ultimate in style, convenience and green efficiency.

When you experience something this good, you don't want it to ever end.

Prairie

Prairie doors capture the American style of architect Frank Lloyd Wright—a look exemplified by strong horizontal lines, open interiors and an inviting style that is both simple and honest.

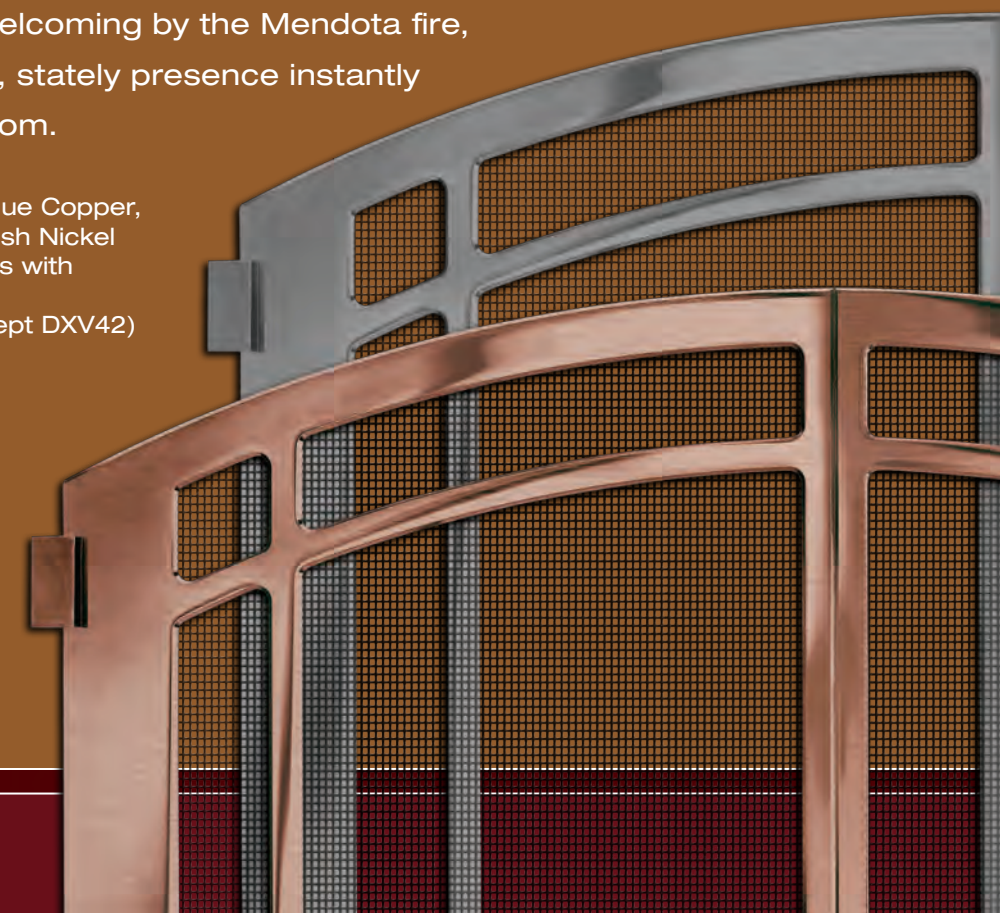

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes with permanent firescreens (Gun Metal lattice overlay not available for DXV42)

Bentley

With its handsome lines and elegant arched doors, Bentley redefines the shape of luxury in today's homes. Made warm and welcoming by the Mendota fire, the Bentley's regal, stately presence instantly transforms your room.

Available in Black, Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes with permanent firescreens (Fits all DXV Series except DXV42)

Focus on the fire

Mendota's beautiful log fire is the result of years of research and development. It begins with careful selection of actual field logs, hand-molded to capture every intricate detail. Each log is hand-painted using a palette of eight colors and arranged to create the exact look and feel of a wood log fire in its most beautiful burning stages. The end result is a true work of art.

Frame it in style

A big part of the Mendota fireplace experience is choosing just the right front, doors and accessories. The excitement of seeing how their shape and color come together to transform your room.

Whatever mood you wish to create—sophisticated, subtle, bold or rugged—Mendota has created a beautiful, precision-crafted front to frame your fire and enhance your unique style.

Design it online

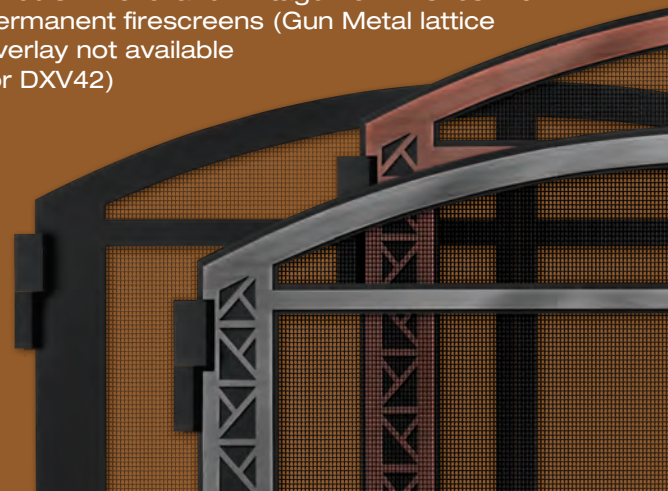

Visit www.mendotahearth.com to view videos of the fire in action and design your perfect fireplace online.

Andover

Nothing re-creates the mood of traditional New England like Mendota's popular Andover design. Classically styled doors combine with artistically hand-molded logs to create the illusion of a woodburning fireplace.

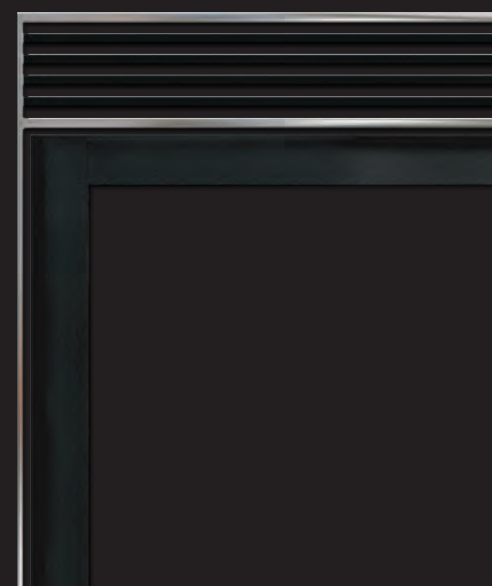

Available in Black finish with optional lattice overlays in Antique Copper, Gold, Gun Metal, Swedish Nickel and Vintage Iron finishes with permanent firescreens (Gun Metal lattice overlay not available for DXV42)

Tuscany

Imagine sitting in front of a roaring fire after enjoying a delightful walk through the vineyards and small villages of the Chianti region of Tuscany. Mendota's Tuscany front is a stylish reminder of the warmth and charm of old world Italy.

Available in Black, Black Onyx, Antique Copper and Gold finishes

Millennia

Modern styling creates a sleek and highly polished appearance for your hearth. A range of color options lets you customize the Millennia front to perfectly match your style and taste.

Available in Black, Classic Brass, Full Brass and Contemporary Silver finishes (Classic Brass and Contemporary Silver not available for DXV60)

Pioneer

Settle in for a long evening, or a long winter, in the comforting glow of your Mendota DXV fireplace outfitted with Pioneer firescreen doors. They capture classic woodburning fireplace ambiance, updated with twin firescreen doors in place of a traditional drape pull.

Available in Black finish (available for DXV35 DT3 and DXV45 DT3 only in Spring 2013)

Deerfield

The Deerfield front features vintage cast scrolls, the age-old symbol of warmth and hospitality. It adds a timeless dignity to any room.

Available in Vintage Iron finish

DXV35 DT3 fireplace with the BurnGreen™ system
(Red Soldier Course Brick interior lining available Spring 2013)

DXV45 DT3 fireplace with the BurnGreen™ system

Green efficiency for a timeless favorite

The popular Mendota DXV fireplaces with their beautiful, award-winning log fires and their exciting array of elegant fronts can now be combined with the convenience and environmentally friendly features of the BurnGreen™ burner/remote control system—so you'll never have to compromise style for function.

A smarter, greener family fireplace
Mendota DXV fireplaces with the BurnGreen™ system are good for your home—and the environment.

- The direct vent design uses 100% outside air for combustion, preserving indoor air quality and maximizing combustion efficiency.
- Mendota fireplaces also produce less than 1% of the harmful particulate emissions of woodburning fireplaces.

BurnGreen™ means burning smarter, giving you choices to conserve fuel and help the environment.

Your home deserves a Mendota

And there's a romantic Mendota that's just right for your home

The purchase of a gas fireplace deserves thoughtful consideration. Whether you're building or remodeling, it's important to help your builder pick a fireplace that complements your home and your style.

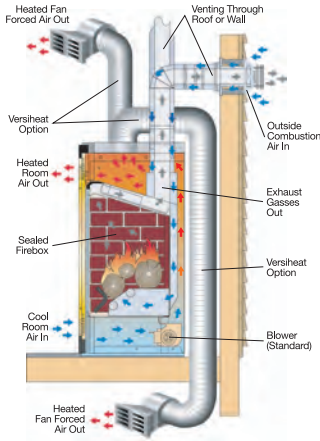

Remember:

- A fireplace is a once-in-a-lifetime purchase that's permanently installed in your home. It's not something that you replace every so often like a car or television.
- A fireplace is the center of attention in the most important room in your home—something you'll see and enjoy every day.
- A fireplace is a product from which you expect a high degree of performance and safety.

Mendota Sealed Combustion, Direct Vent Technology With Versiheat—Forced Air Heat Transfer System (optional)

Mendota's sealed combustion, direct vent system draws air for combustion from outside the home into a sealed firebox. Exhaust is expelled through a separate vent. Room air is heated and recirculated. The system keeps warm air *in* and cold air *out*. This assures high air quality, maximum efficiency and trouble-free operation in today's tight homes.

Versiheat moves heat from your fireplace to other areas in your home. Mendota fireplaces have connections for two Versiheat kits to allow the transfer of heat to two other areas. Heat is moved through ducts with their own blowers and thermostats. This optional system provides heat to more than one room and moves unwanted heat out of the fireplace.

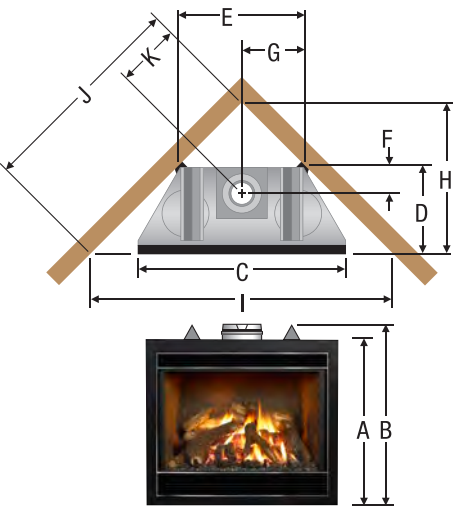

Ask your dealer about other Mendota heat management solutions, or visit www.mendotaearth.com

Mendota's environmentally friendly, sealed combustion, direct vent fireplaces with the BurnGreen™ system are designed to meet exacting governmental EPA standards, as well as national LEED® and NAHB guidelines for high efficiency and low emissions.

Standard Equipment:
304 stainless steel tubular burners, premium fiber log set, grate, embers & coals, AGA certified safety system, IPI electronic ignition, two blowers, neo-ceram glass, FireLight accent lighting (DT3 models), Antique Red Firebrick interior lining (DXV35 DT3, DXV35 TF, DXV42 & DXV60 models) or Red Soldier Course Brick interior lining (DT3 models, available for DXV35 DT3 Spring 2013).

Options:
Mendota fronts & doors; remote control (DT3 remotes have flame & fan modulation & accent lighting control).

BurnGreen™ Comfort Control, With Just a Simple Touch

BurnGreen™ means burning smarter, giving you choices to conserve fuel and help the environment. It allows you to easily:

- Turn the pilot and burners on and off
- Adjust the heat output to your comfort
- Turn the blowers on and off or adjust blower air output
- Turn the FireLight on and off
- Even turn off the rear burner on mild days and late nights

You can accurately control room temperature using the remote control's smart digital thermostat. Simply set the temperature, and the burner will automatically turn down as room temperature nears the set temperature.

Optional BurnGreen™ remote available for DT3 models only. Additional remotes also available.

Save Energy by “Zone Heating” With a Mendota Gas Fireplace

Heat the room you use the most. With an energy efficient Mendota gas fireplace in the room you use the most, you can turn down the central heat, enjoy the beauty, warmth and fascination of Mendota's award-winning log fire, and save valuable dollars on your energy bill.

FireLight Accents your Hearth, With or Without Flames

Included with select DXV fireplaces. Use our FireLight accent lighting system when the fire's on to add extra drama and detailing to the interior lining and logs. Or enjoy the ambiance and gentle glow without flames or heat during warmer months.

Products, specifications and prices subject to change without notice. Consult our Owner's Manual for all final dimensions. Mendota products are manufactured in the U.S.A.
